## Adverse Childhood Experiences and The Negative Impact on Health & Wellness Across the Life Span

Wednesday, September 20, 2017

11:30 am - 4:30 pm

Or

5:30 pm - 7:00 pm

**Rutger's Cooperative Extension Meeting Room  
165 County Road 519 South  
Belvidere, NJ 07823**

**Four Hour Session:** Provides an understanding of how adverse childhood experiences effect a child's development and negatively impact health and wellness across a lifespan. Information will include research, trends in the field of mental health and substance use, interventions, best practice programs and modalities and universal precautions for trauma-informed interactions.

**Ninety Minute Session:** Provides community and family members an overview of how adverse childhood experiences effect a child's development and negatively impact health and wellness across a lifespan. Information will include research, trends in the field of mental health and substance use, interventions, and universal precautions for trauma-informed interactions.
